ANGELUS (610)

Seedling of Satan.

A large incurved cactus 10x6, field planting, of deep blood red color, shading to light lemon yellow at the base and at the tips. A very good grower and an early bloomer with uniformly large flowers held on 3—4 ft strong stems. An exhibition dahlia, that will attract attention and a cactus, that I am proud to introduce.

The largest cactus, that I have ever grown or seen anywhere.
